Title of the Programme: **Seminar on “Emerging Trends in IT Sector”**

Organized by: **Department of Computer Science and Computer Applications**

Date: **20 October 2022**

Resource Person: **Dr. S. Prema**

### Objective of the Programme:

The primary objective of the seminar was to create awareness among students about the latest developments and innovations in the Information Technology sector. It also aimed to educate students on cyber crime and its preventive measures.

### Description of the Programme:

The Department of Computer Science and Computer Applications organized a seminar on “Emerging Trends in IT Sector” on 20.10.2022. The session was handled by Dr. S. Prema, who shared valuable insights into current and upcoming trends in the IT industry.

The resource person elaborated on various modern technologies and highlighted the importance of adapting to the rapidly evolving digital world. The session also covered important aspects of cyber crime, its impact, and ways to ensure online safety.

Students actively participated and interacted with the speaker, making the session highly engaging and informative. The seminar provided a platform for students to enhance their technical knowledge and awareness.

### Outcome of the Programme:

- Students gained knowledge about emerging IT trends.
- Awareness about cyber security and cyber crimes was increased.
- Students improved their understanding of real-world IT applications.
- The seminar motivated students to upgrade their technical skills.

### Conclusion:

The seminar was successfully conducted and proved to be highly beneficial for students. It enriched their knowledge in the IT field and created awareness about cyber security, helping them to stay updated with current technological advancements.
