Title of the Programme: **Webinar on “The Impact of the World Wide Web on Society: Past, Present and Future”**

Date: 01.08.2023

Resource Person: Mr. K. Gopinath, Assistant Professor,
Department of Computer Applications,
Sona College of Arts & Science, Salem.

Objective of the Programme:

The primary objective of the webinar was to create awareness among students about the evolution of the World Wide Web and its significant impact on society from the past to the present, along with future prospects.

Programme Description:

The Department of Computer Science and Computer Applications organized a one-day webinar on the topic “*The Impact of the World Wide Web on Society: Past, Present and Future.*” The session was handled by Mr. K. Gopinath, who elaborated on the origin and development of the World Wide Web and its transformation over the years.

The resource person explained how the web has influenced communication, education, business, and social interactions. He also highlighted emerging trends and future developments in web technologies.

Outcome of the Programme:

- Students gained knowledge about the history and evolution of the World Wide Web.
- They understood the role of the internet in modern society.
- Awareness about future technological advancements was created.
- The session enhanced students’ interest in web technologies.

Conclusion:

The webinar was highly informative and interactive. It provided valuable insights into the development and impact of the World Wide Web. Students actively participated and benefited from the session, making it a successful academic event.
